

Finding the Density of Solid Objects

Procedure:

Regular Solids

- 1) Use a _____ to find the _____. Record the mass in the data table. _____
- 2) Use a _____

- 3) Use the _____
Record the volume in the data table.
- 4) _____. Record the density in the data table.

Irregular Solids

- 1) Use a _____ to find the _____. Record the mass in the data table.
- 2) Use the _____ to find the _____ of each object. _____ the volume in the data table _____
⇒ _____

- 3) Use the _____ to find the _____ of each object. _____

- 4) Use the _____ to find the _____ of each object. _____
_____ ⇒ _____

- 5) Use the _____ to find the _____ of each object. _____ the volume in the data table _____
